EXPERIENCE

PROJECT EXPERIENCE

AI Prompts – Team Project | Software Engineering Program

Tech Stack: Next.js, JavaScript, CSS, Google Cloud API, MongoDB

Project Description: A full-stack web app that allows users to sign in, create, and search for AI-generated prompts.

Responsibility: Focused on UI/UX best practices to ensure an intuitive and clean user experience. Tested and debugged the application.

Achievements: Led the frontend development, turning UI designs into functional, mobile-friendly components using Next.js and Tailwind CSS. Improved user experience by implementing real-time search and intuitive navigation.
